The Machinery of School Internationalisation in Action

Beyond the Established Boundaries

Edited by Laura C. Engel, Claire Maxwell and Miri Yemini

Series: Education in Global Context

Drawing on scholarship from the field of internationalisation in higher education and other theoretical influences in education policy, comparative education and sociology of education, this edited collection offers a much-needed extension of discussion and research into the compulsory schooling context.

In this book, established and emerging scholars provide an authoritative set of conceptual tools for researchers in the field of internationalisation of compulsory schooling. It provides an overview of the current knowledge base and ways in which future research could engage with gaps in understandings.
